The Department of Administration, Leadership, and Technology prepares leaders, researchers, teaching faculty, multimedia specialists, and trainers for schools, colleges, nonprofit agencies, and business settings. Our programs lead to master’s and doctoral degrees and advanced study. Courses of study address the needs of the increasingly diverse clientele served by urban institutions. Our students acquire knowledge and expertise to be effective leaders in a variety of educational settings. They think critically about how organizations function. They learn to identify the needs of the individuals they will serve. They develop technological competence and appropriate research and evaluation skills to promote equitable, humane, and effective educational practice in their chosen fields.

Mary Erina Driscoll, Chair and Associate Professor. B.A. 1978, Connecticut College; M.A. 1980, Sarah Lawrence College; Ph.D. 1989, Chicago.

Christopher Hoadley, Associate Professor. B.S. 1991, Massachusetts Institute of Technology; M.S. 1998, Ph.D. 1999, California (Berkeley).

Teboho Moja, Clinical Professor. B.A. 1977, B.Ed. 1979, North (South Africa); M.Ed. 1982, Witwatersrand (South Africa); Ph.D. 1985, Wisconsin (Madison).

Frances King Stage, Professor. B.S. 1972, Miami; M.S. 1973, Drexel; Ph.D. 1986, Arizona State.

Robert T. Teranishi, Associate Professor. B.A. 1996, California (Santa Cruz); M.A. 1998, Ph.D. 2001, California (Los Angeles).

Number of Adjunct Faculty: 12

Affiliated Faculty

Floyd M. Hammack, B.A., M.A., Ph.D.

The Program in Educational Leadership prepares students for leadership positions in education and policy at the community, school, district, state, and national levels. The demands of effective and responsive professional practice in education are increasingly complex. Our curriculum addresses these complexities through a solid grounding in understanding multiple perspectives on professional practice in a multicultural environment.

Students critically examine the conceptual, organizational, political, social, managerial, interpersonal, and technical dimensions of leading schools as well as the social and educational support organizations that are vital to increasing educational opportunity for children and youth living in urban communities. The research agendas of the faculty and students center on the nexus between theory and practice and explore critical issues facing educational leaders and policy makers today. Collaborations between and among faculty and students and linkages with practicing educational leaders are important components of the program.

OVERVIEW
Our programs are grounded in the belief that advanced graduate study relevant to urban educational issues and leadership requires an inquiry-based orientation to professional learning. Our curriculum is rooted in the contemporary context of educational practice. Students actively engage in a process that develops habits of scholarship that are vital to understanding schools and communities, stimulate intellectual growth, and enhance the practical wisdom of good leaders and policy makers. Our programs of study cultivate a deep understanding of life in schools and communities and the ability to read and interpret research to inform leadership practice.

Our commitment is to support the work of leaders and policy makers who care about enhancing opportunities for children and youth through programs that are relevant, engaging, and authentically linked to both the daily and enduring challenges of professional practice. Our graduate students participate in critical examinations of the multifaceted and complex dimensions of schools and the communities they exist to serve.

CAREER OPPORTUNITIES
Our graduates assume key leadership roles in education, nationally and internationally. Among them are superintendents, principals, directors, supervisors of various programs, school business administrators, assistant principals, university professors, policy researchers, policy analysts, community organizers, and advocates.

DEGREE REQUIREMENTS
The Educational Leadership program offers two options leading to master’s degrees. Although the programs are distinct, students in both share some common requirements and have opportunities to create learning experiences that join the perspectives of those who work in and with schools. Core faculty for both programs collaborate with talented senior practitioners in relevant fields in order to create academic and professional experiences that enable students to learn about key issues and emerging practices in their chosen field.

Both programs provide opportunities for studying issues of politics and policy in education that can prepare individuals who will want to pursue future study in educational leadership, policy studies, or other related fields of advanced study.

The Master of Arts Degree in Educational Leadership, Politics, and Advocacy
This program prepares students who want to work toward social and educational equity through leadership, politics and policy, and advocacy positions in and around schools. Graduates will work in child and community advocacy organizations; policy and research centers; private, charter, and independent schools; and international and nongovernmental organizations (NGOs).

The curriculum offers students considerable flexibility in creating a program of study that will best serve each student’s purposes and goals. Students can pursue multiple paths toward analyzing and critically assessing issues of leadership and policy at the federal, state, and local levels and learn to employ multiple approaches to inquiry and research. Students choose from a wide array of options, including economic analysis, policy analysis, demographic studies, participatory action research, survey design, and ethnographic and case study inquiry.

The program of study consists of 36 units of course work and continuous field-based experience. It is designed to accommodate both full-time or part-time study; course work starts each September (summer course work is also available and encouraged), and full-time students can complete the program in just three 12-unit semesters. Each course examines multiple theoretical perspectives, themes of equity and social justice, a focus on the needs and experiences of impoverished children and youth, and implications for leadership within and outside of educational settings. Eighteen of the 36 units represent required courses focusing on content requirements: Advocacy and Education AMLT-GE.2205, Internship in Educational Leadership, Politics, and Advocacy EDLED-GE.2160, Organizational Theory 1 AMLT-GE.2053, Politics of Education EDLED-GE.2341, Participatory Action Research RESCH-GE.2130, Demographic Analysis and School/Community Planning EDLED-GE.2367. All students participate in an internship in community-based advocacy organizations, schools, or research centers. Placements take into consideration each student’s interests. Additional field-based opportunities are also embedded in coursework throughout the program. The remaining 15 units represent electives. Based on the recommendations of faculty advisers, students pursue additional study relevant to one of the three major foci of the program: leadership, politics, or advocacy.

This program is well-suited for individuals who have a sound background in education as well as for those who have little formal experience but want to study and work at the nexus of leadership, politics and policy, and advocacy within the current sociocultural, political, and economic context of education. Strong candidates for this program are interested in building capacity in and around schools and universities by creating collaborative networks, engaging in research and policy analysis, and enhancing communication between educational systems, human service providers, and the broader public they serve.

This program does not lead to New York State Certification as a School
Building Leader (SBL) (assistant principal or principal). Students interested in obtaining state certification, through a master’s degree, participate in the M.A. Program in Educational Leadership: School Building Leader.

**Master of Arts Degree in Educational Leadership: School Building Leader**

This program prepares students who want to work toward equitable and good schools for all children and youth. Graduates of the program work as teacher leaders, as principals, and in a variety of other educational leadership positions in public and private schools.

The master’s degree program consists of 36 units of coursework that provide opportunities for continuous leadership experiences. Each course incorporates multiple perspectives, themes of equity and social justice, a focus on the needs and experiences of diverse children and youth, and implications for leadership. Twenty-one of the 36 units included in the program are required courses that focus on the content requirements, and three units are linked to the culminating internship. Required courses include Professional Seminar in Educational Leadership EDLED-GE.2005, Excellent School Seminar I—School Design EDLED-GE.2080, Excellent School Seminar II—Teachers and Students EDLED-GE.2085, Leadership for School Improvement EDLED-GE.2305, Politics of Multicultural School Communities EDLED-GE.2342, Data-Driven Decision Making and Leadership EDLED-GE.2343, and Organizational Theory I AMLT-GE.2053.

The additional 12 units represent electives in which candidates, on the recommendation of their advisers, pursue additional study relevant to school improvement, teaching and learning, and community engagement and collaboration based on their individual expertise and experience. Electives may be selected from courses in the Educational Leadership Program; from departmental courses in educational technology and in higher and postsecondary education; and from courses throughout the University in related areas such as teaching and learning, applied psychology, history and sociology of education, public policy, and communications.

Strong candidates for this program must have experience in PK-12 education and a minimum of two years of teaching or student services experience. Throughout the program, successful candidates develop a leadership portfolio that provides evidence of the competencies they have developed, reflections on their field experiences, and plans for continuous learning. Candidates who successfully complete the M.A. program will be eligible for the Master of Arts degree in educational leadership: school building leader. Completion of the M.A. means that students will have successfully completed the academic preparation leading to New York state certification as a school building leader. Students are eligible for the state certification as a school building leader when they have also met all other state requirements, including successful completion of the assessment for all school building leader candidates administered by the New York State Education Department.

**Certificate of Advanced Study in Educational Leadership: School District Leader**

This program is appropriate for individuals interested in leadership opportunities as a superintendent, associate superintendent, or other district-level administrator. Prior to admission to the program, candidates must have completed both a master’s degree in education and the requirements for certification in School Building Leadership (or its equivalent). The Certificate of Advanced Study consists of 24 units, including 21 units of coursework; continuous leadership experiences; and a three-unit culminating internship.

Candidates are required to develop a portfolio that provides evidence of the competencies they have developed, reflections on their field experiences, and their plans for continuous learning.

Candidates who complete the program are eligible for the Certificate of Advanced Study in Educational Leadership: School District Leader. Candidates recommended for the certificate of school district leader will have successfully completed New York State assessment requirements.

**Doctoral Programs**

The Doctor of Education (Ed.D.) degree program in educational leadership is designed for individuals who intend to pursue leadership positions in the practicing profession. The Doctor of Philosophy (Ph.D.) program is designed for those who wish to pursue careers as professors or researchers. Course work emphasizes critical analysis of contemporary problems of practice in collaborative study environments with professors, school administrators, and colleague doctoral students. The Ed.D. and Ph.D. programs require a minimum of 42 units beyond the Certificate of Advanced Study. However, the Certificate of Advanced Study is not required for admission.

**Administrative Core** (15 units):

**Research in the Ed.D. Program** (15 units):

- Dissertation Proposal Seminar EDLED-GE.3013, Research in Educational Leadership EDLED-GE.3001, and nine units of research electives.

**Research in the Ph.D. Program** (21 units):

- Dissertation Proposal Seminar EDLED-GE.3013, Research in Educational Leadership EDLED-GE.3001, and 15 units of research electives in qualitative and quantitative studies.
Digital Media Design for Learning: Educational Communication and Technology

Fax: 212-995-4041

**DEGREES**
M.A., Ph.D., Advanced Certificate

**FACULTY**
Goldman, Hoadley, Plass, Shuchat Shaw

**ADJUNCT FACULTY**
Majzlin, Migliorelli, Stewart, Schilling

**ADMISSION REQUIREMENTS**
Applicants must follow the schoolwide application requirements for NYU Steinhardt degree programs. In doing so, applicants should specify professional experiences in schools and other organizations that work with children and youth, including volunteer work with nonprofit organizations, service learning projects, community organizing activities, or any other leadership activities in the community and/or other relevant or related experiences; address an interest in and potential for educational leadership in their statement of purpose; and provide two letters of recommendation written by people who have been responsible for evaluating academic or professional work, such as professors and workplace supervisors.

**STEINHARDT FELLOWS PROGRAM AND RESEARCH ASSISTANTSHIPS**
See page 169.

---

**The Program in Digital Media Design for Learning (DMDL)** awards the Master of Arts degree and the Certificate of Advanced Study. The curriculum focuses on the design, use, and evaluation of digital media learning environments.

**The Program in Educational Communication and Technology (ECT)** awards a Doctor of Philosophy. This Ph.D. program focuses on conducting qualitative and quantitative empirical research and evaluation of the effectiveness and learning outcomes of such resources and environments.

Both the DMDL programs and the ECT doctoral program courses are organized in several categories: foundations of communication and technology learning theory; educational media design foundations; media design electives; advanced media design electives, including games for learning; field internships; and educational media research, including a master’s thesis, doctoral courses, and dissertation seminars.

All three programs prepare individuals for leadership and other professional roles in the diverse field of educational media and technology. Many M.A. and Advanced Certificate graduates design and produce digital technology-based learning environments, for example simulations and games. Some of our students work as interaction designers for exhibitions in museums and other cultural institutions. Others design and produce educational media for network and cable television, radio, handheld and portable devices; their work includes educational videos, multimedia, and software applications. Others are administrators and directors of academic technology, either K-12 or in higher education, or in corporate training for which media and technology have long been used. Graduates from the ECT doctoral program are faculty in higher education, where they teach and do research in educational communication and technology; others with advanced degrees conduct research, evaluation, design, and development in centers with university, government, or corporate affiliations.

Both DMDL and ECT students ground their design decisions and principles in a strong, theoretical framework. The program is particularly interested in those features of digital media and technologies with potential to have cognitive, motivational, and sociocultural significance for learners. Design is viewed as pivotal to the nature, quality, and effectiveness of learning with technologies. Students and faculty approach this matter of design by understanding diverse perspectives on learning. Of special interest is the development of design principles informed by theoretical foundations and empirical findings, including studio-based learning, cognitive science, the learning sciences, sociocultural theory, constructivism and constructionism, visual and auditory communication, human-computer interaction, and human symbolization.

Of special interest is the intersection of design, cognition, and culture and how their interchange can inform the design of media-based learning environments. Cultural research involves the study of cultural contexts and social dimensions of learning environments, including using digital video-based ethnographic data analysis and interactive software as tools for data analysis. Cognition-based research involves the study of human cognitive architecture and socio-cultural learning theories. Design-based research includes the development, use, and evaluation of emerging media for learning.

CREATE, the Consortium for Research and Evaluation of Advanced Technologies in Education, is housed in the DMDL/ECT Programs. CREATE’s goal is to advance the cognitive science and sociocultural foundations by conducting empirical research on the educational design and use of advanced digital media for learning. Faculty from our programs also play a leadership role in the Games for Learning Institute (G4LI), a multi-institutional, cross-disciplinary initiative to study the design of effective games for learning.

**DEGREE REQUIREMENTS**
The DMDL/ECT programs courses are organized in categories: foundations of educational communication and technology, design foundations, design electives, media research and doctoral seminars, and professional applications. Requirements for the master’s degree, the advanced certificate, and the doctoral degree refer to these categories; for the doctoral degree, there are additional requirements in categories set by NYU Steinhardt.

**Master of Arts**
The DMDL Master of Arts is a 36-unit program: three courses in the foundations of educational communication and technology category; two courses in the design foundations category; four courses selected from the design elective category and professional applications category; two electives chosen from other NYU graduate programs; and the Master of Arts final or thesis project. Academic advisers may recommend...
additional courses for students who lack adequate background in the fields of education or psychology.

**Certificate of Advanced Study**
The DMDL Advanced Certificate is a 30-unit program: three courses in the foundations of educational communication and technology category; two courses in the design foundations category; three courses selected from the design elective category and professional applications category; and two electives chosen from other NYU graduate programs. In addition, students in the certificate program must complete and write a report about three years of professional work experience in the field of educational media and technology; this three-year requirement may be completed before, during, or after completion of coursework.

**Doctor of Philosophy**
The ECT doctorate is a 57-unit program. Doctoral students are required to take seven specialization courses (21 units, including two courses in the foundations of educational communication and technology category; two courses in the research and doctoral seminars category; and three courses selected from any other ECT course category). An additional requirement of 36 units, in categories established by NYU Steinhardt, include six courses on research design and methods; two courses in educational foundations; the ECT content seminar; the dissertation proposal seminar; and two cognate (elective) courses. ECT doctoral students must meet and successfully pass the candidacy requirement, a scholarly literature review and research proposal related to dissertation research planned; prepare and present an approved dissertation proposal; and conduct and document dissertation research and present it successfully in an oral defense.

**DMDL/ECT SUPPLEMENTARY APPLICATION REQUIREMENTS**

**Master of Arts**
In addition to the standard Steinhardt application form, the DMDL program requires a supplemental application requirement—a set of half-page essay responses to the following units: (1) What are your professional goals? (2) What areas of knowledge and skills do you expect to develop while in the Master of Arts program? (3) In your view, what are several of the strengths of and used for educational purposes? (4) What technology skills do you have, e.g., skills in digital media design, social network services, video game design, or productivity tools; in videography or editing? Applicants may also provide samples of previous academic or professional work in the field and must attend an admissions interview.

**Certificate Program**
In addition to the standard Steinhardt application form, the DMDL program requires a supplemental application requirement—a set of half-page essay responses to the following units: (1) What are your professional goals in the field of educational communication and technology? (2) What areas of knowledge and skills do you expect to develop while in the certificate program? (3) What professional work experiences in education and technology have you had, and how will this certificate program contribute to your professional development? (4) In your view, what are several of the strengths of media and technology when designed and used for educational purposes? (5) What technology skills do you have, e.g., skills in computer-based multimedia, Web, or productivity tools; in videography or editing? Applicants may also provide samples of previous academic or professional work in the field and must attend an admissions interview.

**Doctoral Program**
In addition to the standard Steinhardt application form, the ECT doctoral program requires a supplemental application requirement—a set of half-page essay responses to the following units: (1) What are your professional goals? (2) What areas of knowledge and skills do you expect to develop while in the doctoral program, and how will these be useful to your professional plans and goals? (3) What academic, personal, or professional experiences have led to your interest in pursuing a doctorate in educational communication and technology? What considerations led to your decision? (4) Summarize the area of knowledge, set of issues or problems, and body of literature in the field of educational communication and technology or related fields with which you are most conversant. In what areas do you have an interest in research and theory? (5) In what content areas or for which audiences do you have an interest in designing digital media programs for learning? What experiences led to these interests? (6) Describe your position on what is effective instruction, the relation of media and technology to instruction, and the theoretical or conceptual frameworks you find most powerful and useful to support your position. (7) Describe one or more significant academic or professional situation(s) in which you have encountered the problem of improving learning or instruction. How did you identify and analyze the problem, and how did you or would you have solved it? (8) What technology skills do you have, e.g., skills in digital media design, social network services, video game design, or productivity tools; in videography or editing? (9) What research skills and experiences do you have? Describe any previous research activities in which you participated, with a focus on the overall goal and your particular contributions toward achieving this goal. Applicants may also submit samples of previous academic or professional work in the field and must attend an admissions interview.

**STEINHARDT FELLOWS PROGRAM AND RESEARCH ASSISTANTS**
See page 169. ▷

**SPECIAL OPPORTUNITIES**
Our programs offer an excellent array of educational media field internships in over 100 institutions in the greater metropolitan area. Students assist faculty in research, design, and production projects in all media with which the program is concerned; these may be externally funded media projects, projects produced for departments within the University, or media programs developed for schools and other community organizations. In addition, students may participate in ongoing research projects conducted by the Consortium for Research and Evaluation of Advanced Technologies in Education (CREATE) and the Games for Learning Institute (G4Li). The program hosts guest speakers of faculty and other students. Steinhardt Fellows may become Research Assistants when Steinhardt faculty obtain funding for projects that require research assistance. Students are strongly encouraged to contact faculty members they are interested in working with in advance.

All admitted full-time Ph.D. students are awarded a full funding package and are assigned to a faculty mentor. There is no special application for this funding program.
Higher and Postsecondary Education

The Program in Higher and Postsecondary Education prepares individuals for leadership and service in a variety of postsecondary settings. The Master of Arts Program focuses on entry- and mid-level positions in student activities, enrollment management, financial aid, housing and residence life, student life, career services, and similar opportunities in student affairs. Doctoral programs help individuals develop competencies in such areas as urban college leadership, policy analysis, student affairs, institutional research, fiscal management, and international higher education. Students benefit from strong links with two- and four-year institutions in the metropolitan New York area as well as the frequent and close interaction among students, faculty, and NYU administrators.

The Master of Arts Program in Teachers of Business in Higher Education and the Advanced Certificate in Workplace Learning program focus on careers as teachers of business subjects in community colleges and private (for-profit) business schools and as learning and development specialists who can develop curriculum, administer instruction, and teach within business, industry, and government.

New York University’s Program in Higher and Postsecondary Education offers two doctoral programs: the Ph.D. program in higher and postsecondary education and the Ed.D. program in higher and postsecondary education. Both programs emphasize broad knowledge of the field, including an international dimension; issues of access and equity; state and federal policy; student learning and development; workplace learning; and institutional development and assessment. While the programs share some commonalities, the goals and objectives are quite different. The Ph.D. program is a research degree designed for students who aspire to conduct research throughout their careers in roles such as faculty, researchers, government employees, policy scholars, or institutional researchers. The Ed.D. program, on the other hand, is designed for current practitioners who aspire to senior leadership positions in colleges, universities, and other public and private organizations and who may occasionally participate in designing research studies but will more frequently use their knowledge gained in the program to interpret the research of others for their own institution.

**CAREER OPPORTUNITIES**
Graduates of the M.A. Program in Higher Education and Student Affairs are employed in entry-level and middle-management positions in colleges and universities throughout the country. They hold positions as assistant deans, directors, and assistant directors of offices and programs in a broad spectrum of positions in student affairs and services.

Graduates of the master’s degree Program in Teachers of Business in Higher Education, the Advanced Certificate in Workplace Learning, and the post-master’s Advanced Certificate in Business Education are employed in both postsecondary education and organizational learning and development environments. Those emphasizing instruction teach business subjects, including accounting, management, marketing, international business, and information systems, at community colleges and private business schools. Graduates with a learning and development focus are employed in human resource development and learning and development departments in both the public and private sectors.

**DEGREE REQUIREMENTS**

**Master of Arts**
**Master of Arts in Higher Education and Student Affairs**
The M.A. Program in Higher Education and Student Affairs blends academic study with practice through intensive internships at NYU and throughout the New York City metropolitan area. Part-time students combine academic study with their practice in current higher education positions.

The M.A. program allows students to select a program of study from a wide range of interdisciplinary courses. The 36-unit program includes 18 required units in higher education and 18 units in electives, 15 of which may be taken outside the program. Students also have the option of selecting an unofficial Area of Study in order to design a course plan around one of the following: Student Affairs, Administration and Academic Affairs, International Education, and Workplace Learning Leadership.

Academic coursework is applied to practice through a two-year internship taken in the first years of study unless the individual is currently working in the field. During the final semester of study, students must complete a capstone project that integrates student experiences in the program into a portfolio that communicates their developing areas of interest. Full-time students generally complete the master’s degree in two years or less.

**Required Courses in Higher Education**

**Master of Arts in Teachers of Business Education in Higher Education**
The M.A. Program in Teachers of Business Education in Higher Education prepares students for careers as teachers of business subjects in community colleges, private business schools, and four-year colleges and as learning and development specialists who can develop curriculum, administer instruction, and teach within business, industry, and government. For completion of the master’s degree, 36 units are required in the following areas:

**Foundations** (9 units): Foundations courses can come from higher and postsecondary education as well as educational psychology, educational sociology, and instructional technology.

**Content** (9 units): Courses in the business discipline specialization, such as accounting, marketing, management, finance, and information systems. Courses may be taken in the graduate division of the Leonard N. Stern School of Business or the Robert F. Wagner Graduate School of Public Service.

Advanced Certificate
The program offers two Advanced Certificates. The postbaccalaureate Certificate Program in Workplace Learning consists of 15 units and provides opportunities for organizational learning and performance professionals to study in an integrated curriculum that has immediate applicability to their professional responsibilities. Courses are chosen from among Workplace Learning HPSE-GE.2010, Designing and Managing Organizational Learning Programs HPSE-GE.2081, Research Approaches and Techniques in Postsecondary Education, HPSE-GE.2088, Learning in Higher and Workplace Education HPSE-GE.2122, Evaluation of Current Literature in Business and Business Education HPSE-GE.2004, and Colloquium in Workplace Education HPSE-GE.2070.

The program also offers an Advanced Certificate of Study in Teachers of Business Education in Higher Education that consists of 30 units beyond the master’s degree. This highly flexible program permits students to pursue their individual career goals through focused coursework, independent study, and research.

Doctoral Programs
Ph.D. Program in Higher and Postsecondary Education
The Ph.D. curriculum embraces issues of access and equity; state and federal policy; student development; workplace learning; and institutional development and assessment. The strength of our Ph.D. program stems from the range of interests and expertise of our faculty in research, policy development, and institutional leadership. The curriculum includes an extensive and rigorous sequence of research courses that prepare students for the dissertation, which focuses on a question that requires the combined use of literature and a research problem that is empirically investigated. The curriculum offers significant flexibility to ensure that students can construct an individualized program to support their research interests. To be admitted to Ph.D. candidacy, students prepare and defend a candidacy paper, which is an analytical synthesis of the research and related scholarly literature on a researchable problem of significant interest to higher and postsecondary education. The Ph.D. dissertation will be an empirical study that results in the creation of new knowledge.

To be considered for the Ph.D. program, applicants plan to study either full-time or part-time. Applicants are evaluated based on a number of factors, including their prior academic history; GRE scores; statements of interest, academic and professional recommendations, writing sample, and an interview with program faculty.

The Ph.D. requires approximately 60 units beyond the master’s degree, including 18–24 units of higher education specialization, and a dissertation. Full-time students generally complete a doctoral degree in three to five years. The time required for part-time students depends on the time they are able to devote to their studies.

Course plans are designed according to Ph.D. Program Guidelines: Doctoral Seminar HPSE-GE.3009; Higher Education Specialization (18-24 units), including required courses (6 units): Doctoral Colloquium in Higher Education HPSE-GE.3001 and Theoretical Perspectives for Research on College Students HPSE-GE.3120, Foundations of Education (6 units by advisement). Research (18 units of quantitative and qualitative research courses by advisement and the 3-unit Higher Education Dissertation Proposal Seminar HPSE-GE.3015). Cross-disciplinary preparation/cognate electives (6 units by advisement).

Ed.D. Program in Higher and Postsecondary Education
The Ed.D. program is a part-time cohort program that focuses on issues of how research can be utilized to inform professional practice and centers on an extensive program of course work in higher and postsecondary education. It requires 60 units beyond the M.A. degree. Required courses for Ed.D. study: Doctoral Seminar HPSE-GE.3009, Doctoral Colloquium in Higher Education HPSE-GE.3001, Theoretical Perspectives for Research on College Students HPSE-GE.3120, and two summer workshops (one each taken in consecutive summers). Electives can include the history of higher education, organizational theory, globalization, finance and governance, adult and workplace learning, and organizational studies. The culminating experience is a portfolio that includes both a research report and another product that may take the form of a policy brief, article, book chapter, workshop design, professional presentation, or curriculum project.

To be considered for the Ed.D. program, applicants should have substantial work experience in a college or university or serving an educational leadership role in a private or public organization; current administrative position of significant scope; several years of sequentially more responsible administrative experience; and the ability to commit to a three-year course of study. Prior academic history, GRE scores, academic and professional references, and an interview with program faculty are important elements of the application process.

SUPPLEMENTAL APPLICATION REQUIREMENTS
Individuals may apply to study on a full- or part-time basis for the master’s and doctoral programs. Admission to all degree programs is very competitive. Three letters of recommendation are required for both master’s and doctoral applicants.

While candidates for part-time study in the master's degree program in higher education and student affairs may apply for fall or spring admission, candidates for full-time study may apply only for the fall semester. The deadline for applying to the master's degree program in higher education and student affairs for the fall semester is January 6. This deadline is mandatory due to the extensive time requirements needed in the internship interview process. After preliminary admission, selected students who seek internships visit campus in order to meet with prospective internship supervisors. Applicants for full-time study must have an internship in order to qualify for admission.

Doctoral applicants should arrange for an interview with a program faculty member to determine the congruence of their professional aspirations and the program's purposes and directions. Additionally, after admission, visits to campus are helpful to admitted doctoral students who are seeking financial support.
Courses

The courses listed herein are to be offered in 2011-2013.

NOTES TO COURSES
*Registration closed to special students.

DEPARTMENTAL COURSES/AMLT-GE

Courses established by the department to be used by one or more programs as elective or required offerings.

Organizational Theory I
AMLT-GE.2053 Astuto. 30 hours: 3 units. Fall.

Organizational Theory II
AMLT-GE.2054 Astuto. 30 hours: 3 units. Spring. Prerequisite: AMLT-GE.2053 or permission of instructor.

Introduction to Management and Information Science
AMLT-GE.2055 Staff. 30 hours: 3 units. Fall.

International Perspectives on Education Reform
AMLT-GE.2072 Moja. 30 hours: 3 units. Fall.

Introduction to Information Systems
AMLT-GE.2080 O'Connor. 30 hours: 3 units. Spring.

Application of Computers to Administration
AMLT-GE.2428 Staff. 30 hours: 3 units. Fall, spring.

Quantitative Methods in Organizational and Administrative Studies
AMLT-GE.3027 Driscoll. 30 hours: 3 units. Spring.

Educational Reform and Leadership
AMLT-GE.3301 Anderson. 30 hours: 3 units. Spring.

Dissertation Proposal Seminar
AMLT-GE.3400 Staff. 45 hours: 3 units. Fall, spring.

BUSINESS EDUCATION/HPSE-GE

Evaluation of Current Literature in Higher Education and Business
HPSE-GE.2004 O'Connor. 30 hours: 3 units. Spring.

Supporting Learning in the Workplace
HPSE-GE.2010 O'Connor. 30 hours: 3 units. Spring.

Curriculum Development in Business Education
HPSE-GE.2046 Staff. 30 hours: 3 units. Fall.

Colloquium in Workplace Education
HPSE-GE.2070 O'Connor. 30 hours: 3 units. Spring.

Designing and Managing Organizational Learning Programs
HPSE-GE.2081 O'Connor. 30 hours: 3 units. Fall.

Institutional Assessment in Higher Education
HPSE-GE.2090 (See HPSE-GE.2087)

Internship in Business Education
HPSE-GE.2105,2106* O'Connor. 300 hours: 3 units. Fall, spring, summer.

Internship in Educational Leadership, Politics, and Advocacy
HPSE-GE.2159 Astuto. 300 hours: 3 units. Fall, spring, summer.

Internship Seminar in School Leadership
HPSE-GE.2161 Astuto. 300 hours: 3 units. Fall, spring, summer.

Advocacy in Education
HPSE-GE.2205 Anderson. 30 hours: 3 units. Fall.

Education Law
HPSE-GE.2207 Staff. 30 hours: 3 units. Summer.

Transforming the Urban High School
HPSE-GE.2240 Siskin. 30 hours: 3 units. Spring.

Independent Study
HPSE-GE.2300* Staff. 45 hours per unit: 1-6 units. Fall, spring, summer; hours to be arranged.
Leadership for School Improvement
