

Workshops Teleclip TV™ offers in the US

Teleclip TV™ is an Internet news and entertainment channel made by and for kids between the ages of 7 and 16 years that targets youth in the Spanish-speaking world.

At **Teleclip TV™** young people develop and broadcast professionally produced stories of interest to their peers around the world. Through their productions, they learn to approach their projects with a journalist's skills and use new media responsibly. Teleclip TV™ primarily services schools and community-based groups by offering a broad range of television workshops, all taught in Spanish or English. Watch a video about the **Teleclip TV™ Workshops** [at this link](#).

A) Teleclip TV™ Regular Workshops

A1) 1 ½ hours a week classes (15 hours total)

A2) Intensive workshop (15 hours total)

B) Teleclip TV™ Thematic TV Workshops

Specific workshops for children, pre-teens and teenagers. These workshops focus on specific areas and by them we teach Language and Communication skills while they take part of interesting activities both in school or after school.

There are some fascinating workshops offered that focus in these areas (ask for others, subject to experts availability):

- TV and Science: experiments, interviews with Scientists and more;
- TV and Literature: Kids tell us about what they read, their literary heroes and the stories they like
- TV and History: Make terrific reports on American and European History, discover the idols and heroes from past and present
- TV and Environment: Be part of the "[Ecokids](#)" news team: Give us tips for a better earth and quality of life, put what you learn in school into practice, make items about your pets, nature where you live, etc.

Click [here](#) and [here](#) to watch some examples!

C) Special Events Workshops

Video productions for special events including Reading Day, Author Visits, Sports Events, Marathons and others. Watch a video [here](#)!

D) On Demand Teleclip TV™ Creation Prize or Contest

We can design a particular Contest, focused in one topic or goal, in order for the children or students to participate. You choose the topic and let them think about a story, write a script and

record a video. We'll receive the videos and publish them in our Teleclip TV™ web TV channel, giving away prizes to the best of them. This is [**the winner of our 2009 Creation Award!**](#)

All of our workshops include: script-writing, pre-production, video taping, post-production, webcasting, multi-format adaptation and links to our broad network of programs in Latin America and Spain.

Teleclip TV™ can also offer you custom designed workshops that meet the needs of each Institution.

Ask us! Our budgets are based on the organization's requirements.
