TherapyEd’s OT Certification Exam Preparation Course

**On Campus at New York University
Wednesday and Thursday, January 18 & 19, 2017**

TherapyEd’s two-day **Prep Course** has been thoroughly revised and updated for the NBCOT exam. It is the most comprehensive resource and effective tool for passing the certification exam. Course participants learn to critically analyze test questions, develop efficient and effective study plans, assess individual strengths and weaknesses, and demonstrate improved critical reasoning skills and confidence for the NBCOT exam. Question analysis and examination skills are stressed and both the Multiple Choice and Simulation test item formats are reviewed.

Course Materials Include:

- TherapyEd’s *National OT Review and Study Guide* by Rita P. Fleming-Castaldy. This updated text is the only Guide which contains a comprehensive review of occupational therapy content, study and test-taking strategies, and three complete practice exams. Critical reasoning strategies and rationales for all test questions are integrated into the text. The Multiple Choice and Simulation item formats are reviewed and explained. This text is shipped upon registration.
- TherapyEd’s Occupational Therapy Course Manual includes practice questions, study strategies, test taking hints, the course syllabus, and a self assessment guide. It covers both Clinical Simulation and Multiple Choice question types. It is handed out and used at the course.

Register Online: Go to www.TherapyEd.com and select the New York University course. Then type NYUOT into the discount code box on the next page.
