Clinical Assistant Professor of Communicative Sciences and Disorders, Non-Tenure Track
Communicative Sciences and Disorders

New York University’s Steinhardt School of Culture, Education, and Human Development invites applications for a non-tenure track Clinical Assistant Professor in Communicative Sciences and Disorders to begin in September 2017. The appointed faculty member will be part of the Department of Communicative Sciences and Disorders.

NYU Steinhardt has one-of-a-kind integration of education, communication, health, and the arts, with eleven departments, seventeen research centers and institutes, 292 full-time faculty, and close to six thousand students. We are committed to substantially increasing the proportion of our faculty from historically underrepresented groups as we strive to create the most intellectually diverse, inclusive, and equitable institution that we can. The Department of Communicative Sciences and Disorders (CSD) is going through an exciting period of growth in academic offerings and in increased research productivity. The department grants undergraduate, master’s, and doctoral degrees, and has a state-of-the-art in-house Speech-Language and Hearing Clinic. In addition to these residential degree programs, we are launching a distance education MS program in Fall 2016, as well as a Bilingual Extension Program.

Position Description: We are seeking candidates who can augment and extend the current strengths of the department and who have strong academic potential. The successful applicant will serve as the Director of the Bilingual Extension Program.

Responsibilities: Teach master’s students; participate in faculty meetings, on committees, and provide other service to the University; develop, maintain and grow the Bilingual Extension Program. The successful candidate will supervise student clinicians, and teach courses both on campus and in our new online distance education program.

Qualifications: Certified by ASHA (CCC-SLP), have an earned Ph.D. or Master’s degree in Communicative Sciences and Disorders, and demonstrate a strong track-record of teaching. Meeting the ASHA standards to be a qualified bilingual services provider with a license to practice, or eligibility to be licensed, in New York with a bilingual extension certificate. The ideal candidate will have experience working with aspects of bilingualism in the field of speech-language pathology, including assessment, treatment and prevention services.

NYU's dynamic Global Network University includes NYU Abu Dhabi, NYU Shanghai, and international programs and academic centers around the world. NYU Steinhardt faculty may have the opportunity to engage in research and teaching at these global study and research sites.

Applications: Please apply online with a letter of application, curriculum vitae, teaching statement, and three letters of reference.
