

## INFORMATION TECHNOLOGY

Steinhardt IT has previously only been focused on IT services such as storage and desktop support.

# DEFINING IT AND AT SERVICES

## to Redefine Technology at Steinhardt

Further defining technology services doesn't necessarily create silos, it allows for creative collaborative ideas, initiatives and solutions.

## ACADEMIC TECHNOLOGY

Recently, Steinhardt IT has realigned resources to more effectively and efficiently support Academic Technology.

### HIGHLIGHTS:

- ▶ Analytics
- ▶ Remote apps
- ▶ SteinStorage
- ▶ Cradle to grave hardware tracking
- ▶ Relocating service centers closer to community
- ▶ Managing assets via Dell Kace

## IT

### OUR GOALS:

- Leverage data to inform business decisions
- Utilize existing resources for new outcomes
- Create a culture of collaboration and cross-functional operations

## AT

### HIGHLIGHTS:

- ▶ Curated Steinhardt and university resources so that faculty, staff and researchers can focus on content
- ▶ Collaboration on technology enhanced courses
- ▶ Advocating for technology integration in physical and online environments
- ▶ Participate in Instructional Technology Support Committee (ITSC)
