

Mohamed Toure's Adventure in Korea as a result of a Foreign Language Assistance Program (FLAP) grant in the Bronx...

Under the Foreign Language Assistance Program (FLAP), schools are provided with funding to teach language other than English and its cultures as part of their foreign language programs.

Middle School 142 (MS 142), District 11 in the Bronx, applied for and was awarded the FLAP grant to teach Korean as its foreign language. The learning of the Korean language and culture has been taken to a much higher level. Ms. Mikyong Cho, the Korean language teacher organized a culminating activity where selected students were able to actually visit Korea!

Mohamed Toure is a 7th grade student at MS 142 who had the opportunity to visit Korea on July 22, 2008. To read about Mohamed's adventures in Korea, you may click onto: [Mohamed Toure](#)
